GENERAL DESCRIPTION

Name of lead auditor: Vicky LI; APSCA membership number: CSCA 21701919.

Monitoring partner name: TUV Rheinland.

Audit schedule details: The audit is planned for 1 auditor x 1 day.

Announcement Type: This is semi-announced audit.

Business partner information: The auditee was located at No.11, Xiyuan Road, Shifeng Street, Tiantai County, Taizhou, Zhejiang, China (浙江省台州市天台县始丰街道西园路11号).

The auditee was established in 2021. The main products manufactured by the auditee were automotive sewing products. The main production processes in auditee included cutting, sewing, inspection and packing. The auditee did not use contractor or subcontractor.

Audited location information:

There were three buildings in audit site, which were owned by the landlord and it manufactured door curtains etc. Based on lease contract review, management interview and on-site observation, the auditee only leased 3F of Building 1 (one 3-storey building) as operation site and total lease area about 1700 square meters. The 1F and 2F of the shared building were used by landlord as production area and the other two buildings were used by other tenements manufacturing metal products, car accessories or emergency products etc. The auditee had no relationship with other factories in the same boundary other than leasehold with landlord, and did not share workers with them. The auditee did not provide dormitory or kitchen for workers. There was one rest area in auditee for workers eating foods which were brought by themselves. This audit only covered the lease area of auditee.

Operating shifts and hours: Normal working hour was 8 hours per day and 5 days per week: 7:30-11:30, 12:30-16:30. If needed, 2 hours (17:00-19:00) overtime was arranged on weekdays. Workers generally had 8 hours overtime on Saturdays and rest on Sundays. Attendance records from 1 June 2024 to audit date were reviewed. As per attendance records analysis, maximum 2 hours overtime per day, 12 hours overtime per week, 50 hours overtime per month and 1 day off after 6 days consecutive working days was guaranteed.

There was no obvious peak season.

Time recording system: Electronic attendance system (facial recognition) was used to record working hours of all workers.

Salary payment details: Payroll records from June 2025 to May 2025 were reviewed. The minimum wage for workers was at least RMB30.5 per hour, which was higher than legal minimum wage (RMB2010 per month equivalent to RMB11.55 since January 2024). Overtime on normal working days, rest days and statutory holidays was paid at 150%, 200% and 300% of normal wage. No overtime hours were noted on statutory holidays. The whole month was counted as a wage calculation cycle, and the wage was paid by cash at the end of next month. The last payment month was May 2025. Paid annual leave and statutory holiday etc. were provided to workers per legal requirement.

Worker number information:

There was a total of 33 workers (29 production workers and 4 non-production workers), and the 29 production workers included 3 males and 26 females. There were 5 domestic migrant workers including 3 males and 2 females. No foreign migrant, pregnant, seasonal, temporary, disabled or home-based worker identified in the factory. The doorkeepers were hired by landlord and the factory area was locked when off duty. No interns, apprentices or contractor worker was identified.

Good practices: N/A

Worker organization details: There was no trade union in the factory but three worker representatives elected by workers freely.

Circumstances:

The management was cooperative and active throughout the whole audit, and the management agreed all findings and signed the finding summary report in closing meeting.

Summary of findings:

PA1: No effective social compliance management system and no effective workforce capacity planning;

PA2: No long term goals to protect workers and workers had no idea about amfori BSCI COC;

PA5: Partial workers were not provided with social insurance.

PA6: Monthly overtime hours exceeding legal requirement;

PA7: Insufficient management in injury insurance, occupational health and safety training and machine safety.

Living wage calculation:

#LivingWage: 1). No anker wage available for the producers location, so we used the data provided by auditing company.

2). The calculation methodology refers to anker living wage structure. 3). The data comes from the local bureau of

statistics for the current year.

Attachment:

The Personal Information Protection Law of the People's Republic of China was effective as of 1 November 2021, the producer signed General Terms and Conditions of Business of TUV Rheinland in China before the audit and ensured that relevant personal data and information provided to TUV Rheinland auditor(s) had been obtained the individual's consent during the audit.

Question: 1.1 Is there satisfactory evidence that the auditee has set up an effective management system to implement the amfori BSCI Code of Conduct?

ENGLISH

LOCAL LANGUAGE

Finding

The factory partially respected this principle: Based on document review, site observation, worker interview and management interview, the factory established and implemented social compliance management system, but did not implement the management requirements of social insurance, working hours and OHS etc. effectively, so there were gaps in the performance area of PA1, PA2, PA5, PA6 and PA7. The management stated that they needed more experience and time to meet the requirements. It violated requirement of amfori BSCI system manual.

工厂部分遵守该原则：根据文件审核、现场观察、员工访谈和管理层访谈，工厂建立并实施了社会责任管理体系，但是没有有效执行社保、工时和职业健康安全等管理要求，因此在PA1、PA2、PA5、PA6以及PA7这些绩效领域还存在差距。管理层表示，他们需要更多的经验和时间来达到这些要求。违反了amfori BSCI系统手册的要求。

Question: 1.4 Is there satisfactory evidence that the auditee's workforce capacity is properly organised to meet the expectations of the delivery order and/or contracts?

ENGLISH

LOCAL LANGUAGE

Finding

The factory partially respected this principle: Based on document review and management interview, the factory had one production capacity planning procedure, but did not implement it properly, so that workers' monthly overtime hours were not controlled within legal requirement in past 1 year. The management stated they arranged production according to customers' requirements and it was hard to control the monthly overtime hours within 36 hours if busy. It violated requirement of amfori BSCI system manual.

工厂部分遵守该原则：根据文件审核和管理层访谈，工厂有一个产能规划程序，但是没有对这个程序进行合理执行，以至于工人的月加班时间在过去1年没有控制在法规要求范围内。管理层表示，他们根据客户要求安排生产，因此在忙的时候很难控制月加班时间在36小时之内。违反了amfori BSCI系统手册的要求。
